Subject Index

Acid–base balance
  exchange transfusion 111
  newborns
Amino acids
  branched-chain ketoaciduria 83
  cystathioninuria, neuroblastoma 80
  cystinosis, treatment of 613
  fructosemia, hereditary 141, 432
  methylmalonic acidemia 28
  plasma levels in newborns 13, 21
Amniotic fluid
  chemical components 111
Asphyxia
  EEG 110
  hyponatremia in 52
Azathioprine 409

Bacteriology
  haemophilus influenzae meningitis, ampicillin 211
  phagocytosis in rickets 288
  Salmonella Thompson, neonatal meningitis 427
Bilirubin
  excretion, newborn infants 148, 153
  oestrogens, influence of 597
  phenobarbitone, influence of 596, 681
  pregnandiol, hyperbilirubinaemia 451
Blood
  acute leukaemia, mediastinal infiltrate 90
  beta thalassaemia, diagnosis in newborns 523
  bleeding disorders, glycogen storage disease 127
  coagulation cyanotic heart disease 551
  erythroblastosis, late prognosis 112
  erythroblasts, immunosuppressive therapy 44
  fibrinogen, newborns with resp. distress syndrome 281
  fibrinolysis, foetus 369
  fibrinolysis, newborns 33, 281
  haemolytic uraemie syndrome 347
  haptoglobin in malignant disease 381
  hemopexin, haptoglobin, hemolytic diseases 121
  intravascular coagulation 664
  leukemia, cerebromeningeal, cytosine arabinoside 164
  myeloproliferative disease, chromosomal anomalies 591
  normal values 49
  Rh-immunization, prevention of 601

Cardiovascular system
  atrial flutter, congenital 587
  chromosomal conditions, congenital heart disease 65
  congenital heart disease, coagulation in 551
  congenital heart disease, intellectual development 169
  mediastinal leukaemic infiltrate 90
  portal hypertension 472
Chromosomes
  fatal granulomatous disease 403
  congenital heart disease 65
  Cri du Chat syndrome, hereditary 348
  myeloproliferative disease 591
  XXXXY chromosome anomaly 706
Cri du Chat syndrome 348
Crohn's disease 473
Cystathioninuria 80
Cystinosis 613

Ectodermal dysplasia 94
Endocrine organs
  diabetes insipidus, growth hormone in 343
  gastric mucosal changes, endocrine disorders 443
  hyperparathyroidism, primary 249
  hypoparathyroidism, familial, hypomagnesaemia 715
  hypothyroidism, ataxic syndrome in 323
  hypothyroidism, testicular enlargement 317
  Kallman's syndrome
  testosterone excretion, cong. adrenal hyperplasia
  vasopressin, growth hormone response to 343
Enzymes
  acid phosphatase, synovial fluid 205
  dipeptidases 443, 456, 621
  enterokinases 456, 457, 458
  galactokinase 669
  sucrase, isomaltase 460
Epidermolysis bullosa 101

Fatal granulomatous disease 403
Foetus
  acoustic stimulation, response to 599
  electrolytes, plasma, red cells 192, 598
  ethanol, effect on uterine contractions 597
  fibrinolysis 369, 598
  salicylate damage, mice 517
  tracheobronchial fluid 112
Fructosaemia
  tyrosine metabolism 141, 227, 432

XUM

Galactosaemia, galactokinase deficiency 669
Gamma globulins
  spina bifida cystica 134
Gastrointestinal tract
  anorectal atresia 473
  chloride diarrhoea 461
  cholestasis 448
  coeliac disease, albumin metabolism 452
  coeliac disease, antibodies in 453
  coeliac disease, diagnostic criteria 461–464
  diarrhoea, chronic, treatment of 446
  diarrhoea, sugar induced 455
  dipeptidases 443, 456, 621
  duodenal obstruction 468
  enterokinases, deficiency 456, 457, 458
  gastroenteritis, rare E. coli type 460
  glucose–galactose malabsorption 74, 214
  gluten intolerance, frequency of relapses 481
  gluten, intraduodenal instillation of 461
  haemobilia, traumatic 471
  hyperbilirubinaemia, pregnandiol 451
  immunohistochemistry, intestinal mucosa 447
  immunologic deficiency 447
  intestinal biopsy 459
  intestinal flora, malabsorption 449
  intestinal malabsorption 273
  intussusception 473
  jejunal mucosa, malnutrition 58
  lactic acid, faeces 448
  lactose intolerance 451
  lipids in serum 445
  Lowe's syndrome 453
  malabsorption, lesions in 446
  malnutrition, hormonal interrelationships 459
  methionine transport 450
  milk allergy, lymphocyte transformation 449
  morphology, bowel 448
  mucosal changes, endocrine disorders 443
  mucoviscidosis, liver function, bile tract 539
  pancreozymin, effect of 444, 692
  portal hypertension 472
  protein intolerance 451
  protein losing gastroenteropathy 217
  proteinmalabsorption, diagnosis of 454
  regional enterocolitis 473
  secretin, effect of 444, 692
  sucrase-isomaltase, localization of 460
  triglycerides, long chain, hydrolysis rate 444
Genital organs
  clitoris, correction of hypertrophy 467
  intersex, surgical treatment 465, 466
  Winkelmann's operation 471
Glycogen storage disease
  genetic studies 529
  hepatomegalic forms, bleeding disorders 127
  hyperlipidaemia in 701

Haemolytic uraemic syndrome 347
Hand-Schüller-Christian's disease 343
Haptoglobin
  malignant disease 381
Hypercalcaemia
  fat necrosis, subcutaneous 228
Hyperparathyroidism, primary 249
Hyperuricemia, Lesch-Nyhan disease 233

Immunology
  cellular immunity, deficient in ataxic diplegia 545
  C-reactive protein in infants 25, 676
  deficiency, intestinal mucosa 447
Infants
  C-reactive protein 25
  jejunal mucosa in malnutrition 58
Infections
  adenovirus 310
  cytomegalovirus 303
  inclusion body disease 227
  meningitis, haemophilus influenzae, ampicillin 211
  neonatal meningitis 226, 427
  neonatal osteomyelitis 227
  neonatal pneumonia 226
  toxoplasmosis, congenital, generalized 103
  urinary tract, renal function 605

Kallmann's syndrome 229

Lesch-Nyhan disease 233, 259
Lowe's syndrome 228, 453, 631

Malabsorption
  diagnosis of protein malabsorption 434
  dipeptidases, disacharidases 621
  glucose–galactose 74, 214
  gluten intolerance, frequency of relapses 481
  intestinal 273
  intestinal flora 449
  lesions in 446
  renal glucosuria 456
Malformations
  cerebral malformations, thrombocytopenia 185
  ectodermal dysplasia 94
  exstrophia vesicae urinariae 469
  hydrancephaly 105
  Lowe's syndrome 228
  major and minor malformations, newborns 297
  megaduodenum syndrome 467
  myelomeningocele, anal continence 491
  myelomeningocele, bladder function 487
  nuchal naevi 416
  renal dysplasia 1
  salicylate induced damage 517
  spina bifida cystica 134
  telangiectases 416
  urethra 469
Malignant diseases 228
Malnutrition
  hormonal interrelationships 459
  jejunal mucosa in 58
  treatment 446
Maple syrup urine disease 83
Mastocytoma 558
Metabolism
  amino acids, hereditary fructosemia 141, 227, 432
  amino acids phenylketonuria 241
  depot fat, fatty acid composition of 505
  fatty acids, plasma 637
  glycogen storage disease, bleeding disorders 127
  hypercalcaemia, sarcoidosis 582

hyperlipidaemia, glycogen storage disease 701
Lesch-Nyhan disease 233, 259
lipid, in newborns 348
methionine transport 450
methylmalonic acidaemia 28, 88
phosphoglycerides, red cells 637
testosterone excretion 137
Methodology
biopsy, cerebral cortex 108
capillary v. venous blood, normal blood values 49
cardiotocography 600
collection of urine in urostomies 468
fine-needle liver biopsy in storage diseases 293
parenteral feeding 472
spirometry 648
split function, renal 1
Methylmalonic acidaemia
amino acid pattern 28
vitamin B_{12} dependency 88
Mongolism
somatic deviations 199
Mucoviscidosis 539

Nephrology
creatinine in serum, normal values 399
diuretics, effect of in newborns 659
hemodialysis, infants 221
immunosuppressive therapy 44
kidney transplantation 471
pyelonephritis, childhood, glomerular filtration rate 1
reabsorption of water 513
renal insufficiency, sarcoidosis 582
Nervous system
ataxia in congenital hypothyroidism 323
ataxic diplegia, cellular immunity 545
cerebral development 101, 116
cerebral malformations, thrombocytopenia 185
cerebromeningeal leukemia, therapy 164
congenital teratoma, intracranial 102
encephalopathy, progressive 106
epidermolysis bullosa, neuropathology in 101
head injuries, sleep studies 565
hydranencephaly 105
intracranial hypertension, benign 328
meningitis, adenovirus type 7
myelomeningocele, anal continence 491
myelomeningocele, normal bladder function 487
poliodystrophia cerebri 100
pseudotumor cerebri 328
sleep 572
Newborn infants
amino acids, plasma, small for dates 13, 21
beta thalassaemia, diagnosis of 523
bilirubin excretion 148, 153
body temperature, anoxia, rabbits 603
costochondral junctions, perinatal death 105
dislocation of epiphyses 377
diuretics, effect of 659
drug metabolism 596
duodenal obstruction 468
early feeding, piglets 602
EEG in asphyxia
fatty acids, anoxia, rabbits 603
fibrinolysis 33, 281
gamma globulins, spina bifida 134
haptoglobin 121
hemopexin 121
hyaline membranes 208
hyponatremia following asphyxia 52
hypothermia, lambs 600
inclusion body disease 227
infections 114, 115
intracranial teratoma 102
lipid metabolism 348
lipolysis, piglets 602
lipoproteins 349
malformations 297
meningitis 226, 427
mongolism, somatic deviations 199
oestrogen, bilirubin level 597
osteomyelitis 227
parenteral feeding after surgery 472
perinatal mortality 601
phenobarbitone, serum bilirubin 596, 681
pneumonia 226
prognosis of pathological conditions 113
prolonged hyperbilirubinaemia 451
respiratory quotient, metabolic rate 653
Rh-immunization, prevention of 601
serum lipids 445
skin temperature, acid base balance 115

Odontology
fluoride ingestion, bottle-fed infants 424
Osteogenesis imperfecta 340

Phenylketonuria
renal transport of amino acids 241
Premature infants
intensive care of 353

Respiratory distress syndrome 208, 281, 497
Respiratory tract
centrolobular emphysema, oxygen treatment 697
expiratory flow rates 648
hyaline membranes, bronchial arteries 208
pathology, postnatal period 497
respiratory distress syndrome, fibrinogen in 281
respiratory distress syndrome, fibrinolysis in 281
respiratory quotient, newborns 653
Rheumatoid arthritis
synovial fluid, acid phosphatase 205
Rickets
bone marrow 363
phagocytosis, evaluation of 288

Sarcoidosis, hypercalcaemia, renal function 582
Silver's syndrome 435
Skin
epidermolysis bullosa 101
mastocytoma 558
nuchal naevi, interscapular telangiectases 416
Sleep 565, 572
Social paediatrics
anthropometry, Ethiopian preschool children 157
infant mortality, neonatal hospital units 112
mother and child welfare in Poland 110
social research in paediatrics 265
Sudden unexpected death 685

XUM

Thalassaemia 523
Therapy
ampicillin, haemophilus influenzae meningitis 211
azathioprine 409
cytosine arabinoside, cerebromeningeal leukemia 164
immunosuppressive 44
Toxoplasmosis 103, 104
Tumor
ganglioneuromatosis, endocrine tumors 103
hepatoblastoma, hepatocarcinoma 107
neuroblastoma, classification 102
neuroblastoma, cystathioninuria 80
neuroblastoma, prolonged survival 711
teratoma, intracranial 102

Urology
bladder function, myelomeningocele 491
bladder stone disease 177, 385
exstrophia vesicae urinariae 469
kidney transplantation 471
micturition cinemathography 470
renal function, recurrent infection 605
urethral reflux 469
urethra, malformations of 469
urinary flow 470
urostomy, collection of urine 468

Vaccination
epidemic influenza 440
measles 441
measles vaccination, maple syrup urine disease 229
polio 441, 536
smallpox 442
Virology
adenovirus type 7, meningitis 310
cytomegalovirus infections 303
Vitamins
B_{12}-dependency, methylmalonic acidemia 88
